## Installation and commissioning

**Turnkey and efficient!**

Our service offers you comprehensive turnkey installation for your systems. We supervise and manage the installation, including power-up, and stand behind our workmanship. All parameters are fine tuned, and the components work together as planned. Trust in our experts to ensure that your system functions optimally.

## Safety check-up

**Maximum plant safety for your company!**

Maximize the safety of your systems by compliance with strict German Ordinance on Industrial Safety and Health and accident prevention regulations - generally accepted world-wide. Our safety inspections are certified and include inspection, testing, measurement, and documentation in accordance with OEM specifications and standards. By selecting our services, you can protect your employees and investment, minimize risks, and meet all legal requirements with confidence.

## Training and process consulting

**Empower your team to perform at their best!**

Both man and machine are crucial to the success of your production. Optimise your operation with LAUFFER's tailored training for both presses and press systems. Our experienced team members provide practical knowledge on technology, troubleshooting, process control, and safe operation. Empower your team to achieve maximum performance and system availability.

## Calibration service

**Maximum product quality for your company!**

Our calibration service guarantees that your products meet the highest quality standards as specified by the manufacturer. We provide inspection, testing, measurement, and documentation in accordance with LAUFFER's specifications and standards. By ensuring consistent and high-quality components, you can minimize your risks and meet your customers' requirements with confidence.

## Warranty

**Your advantage in safety!**

You can confidently extend the standard warranty periods to meet your individual requirements with certified LAUFFER service. Our flexible warranty extensions provide worry-free assurance for your production.

## Service and maintenance

**Maximize your process up-time availability with customized maintenance and service packages!**

Our maintenance and service packages for press systems guarantee maximum system availability with minimum downtime. Experienced technicians ensure process-adapted execution, minimize downtimes, and use proven LAUFFER and ISO standards. You can rely on our expertise from thousands of successful system maintenance projects in varied industrial sectors.

Our maintenance and inspection packages provide the foundation for intelligent service agreements, guaranteeing the safety and reliability of your press systems for decades to come.

## Technical support

**Fast, efficient - whether via hotline, remote or on-site!**

Discover LAUFFER's technical services! You will receive versatile support tailored to your needs:

- » **Hotline:** Our experts are available to assist you with technical questions and problems. Contact us by phone, email, or in person from Monday to Friday (excluding public holidays) between 7.00 a.m. and 5.00 p.m. CET at +49 (0)7451 902 199 or at [service@lauffer.de](mailto:service@lauffer.de).
- » **Remote:** Receive prompt diagnoses and solutions through our optional remote service to maintain the operational reliability of your systems.
- » **On-site service:** Our technical experts will provide on-site support for more complex tasks to ensure your production is not interrupted.

With our technical support, you can rely on us to ensure your production process runs smoothly without risk of down-time.

**Service-Hotline:**

## Spare and wear parts

**Fast and reliable using only top-quality components!**

Experience LAUFFER's spare parts service! We offer quality-tested original spare parts and accessories in OEM quality for almost any requirement. With thousands of parts in stock, we can deliver within 24 hours in over 95% of cases. Contact us for prompt delivery and expert advice!

LAUFFER also provides an exchange service for defined components and assemblies. Send your defective or damaged component to us and we will promptly send you a factory-overhauled replacement part. Our service guarantees quality, speed, and full warranty.

## Service agreements

**Your key to worry-free plant operation!**

Our service agreements provide a comprehensive solution for ensuring reliable system availability. This includes scheduled maintenance and service in accordance with the manufacturer's specifications and LAUFFER and ISO standards. An annual contract, based on the selected service and maintenance package, covers all services, including wear and spare parts at special rates.

Access to our hotline and the option for remote service are included in every service agreement!

## Retrofit and upgrades

**Bring your press up to date!**

Do you want to enhance the performance of your press? With LAUFFER's retrofit service, you can operate your system with the latest technology, modern controls, simplified HMI, increased safety, and improved energy efficiency. Whether it is a LAUFFER press or from another manufacturer, we will restore it to a fault-free and safe condition, just like new. You can trust our experience from numerous successful service projects. Take your press to the next level with modern solutions!

Customised technology upgrades are available for many systems to increase performance, reduce costs, and promote sustainability. Experience new functions for your press, real-time monitoring, and maximum safety in accordance with the latest standards. Optimise your processes for unrestricted productivity.

## Rental service

**The flexible solution for your specific needs!**

Explore our extensive range of rental presses! LAUFFER provides maintenance and guarantees seamless production. Choose the rental period that suits your schedule. You will receive a comprehensive package that includes delivery, installation, and commissioning, as well as removal upon return. Our experts will assist you in selecting the best option for your application. Invest with clarity and transparency. Boost productivity and save money simultaneously.

## Machine buyback

**Benefit from our machine buyback program!**

LAUFFER offers you the opportunity to replace your old, idle machines with state-of-the-art, efficient models. Save space, time, and resources.

Our professional team will evaluate your old press and advise you on best options, whether to buy it back or invest to continue using it.

## Used machines

**High-quality used and factory refurbished presses!**

Explore our supply of used and refurbished presses! They are repurposed to be environmentally friendly, future-proof and of top quality, all at unbeatable prices and with short lead times. Our presses offer sustainable performance for your production needs.
